

CRCA

CLINICAL RESEARCH CENTER OF ALABAMA
An Affiliate of Alabama Allergy & Asthma Center

MISSION

To provide superior clinical research services to advance the science of medicine relating to allergy, asthma and immunology and other disease states. Our dedicated and experienced physicians and staff conduct human clinical research with compassion and respect for our research patients. To develop and share knowledge that improves the care of patients around the world through innovative clinical research.

GOALS

- To work as a partner with our patients in conducting research that benefits the practice of medicine and overall patient care
- To provide the best mix of expertise and service to achieve our research goals
- To continuously improve our methods and knowledge to provide innovative solutions to our patients needs
- To be cost effective, flexible and profitable in bringing new treatments to patients

GUIDING PRINCIPLES

- We value our employees and support certification and continuing education
- We recognize the common interests of the patient and the medical care provider
- We value collaboration with sponsors and clinical research organizations that provide the best design, structure and analysis of medical information
- We believe that knowledge should be shared
- We support collaboration in all activities
- We believe in supporting academic endeavors
- We strive to be an organization of professionals who continually learn from one another
- We strive to be responsive to sponsors and Clinical Research Organizations while balancing their needs with our mission
- We strive to maintain a professional and academic culture while being efficient in our operations

VISION

Our vision is to be an industry leader in clinical research. To realize this vision, we strive to develop:

- A workplace environment that fosters collaboration, creativity and professional development
- A diversified mix of research by therapeutic area that reflects the interest and expertise of our medical providers/investigators
- More effective strategic alliances with Alabama Allergy & Asthma Center and other practices in the community
- A surplus that allows for academic endeavors and philanthropy.
